ПОЛИСТИРОЛ (ПЕНОПЛАСТ)

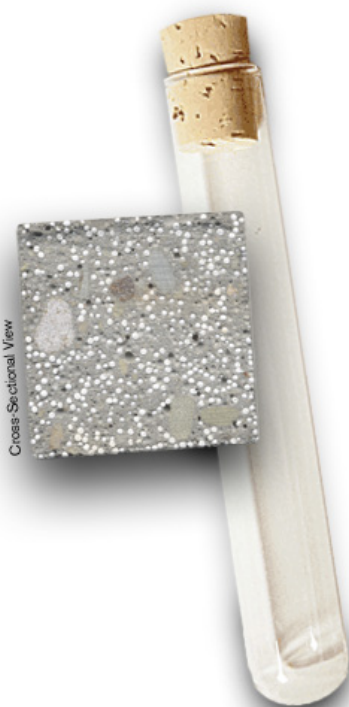

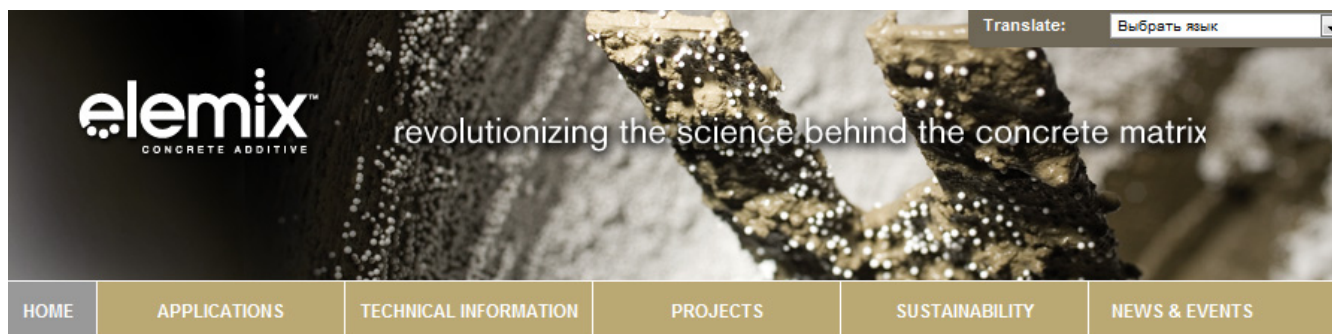

- 1

-
- A newborn baby is lying on its back on a dark blue, donut-shaped baby ring. The ring has a white pattern of small animals, possibly rabbits or mice. The baby is wearing a pink long-sleeved shirt and white pants. The baby's eyes are closed, and it appears to be sleeping. The background is plain white.

3 / 5

Technical Information

Developed using polymer science, Elemix additive reduces the variability in concrete mixtures – delivering a more consistent batch, every time. Concrete formulated with Elemix additive allows the producer to customize lower unit weights, while improving the physical characteristics of concrete – pumping improves, thermal performance increases - resulting in an enhanced lightweight, durable concrete product.

Adhering to ASTM standards, our technical development and support team works hard to continually develop new mix designs and product features to improve concrete. Elemix additive is UL approved (#D2974) and meets ASTM Test requirements for structural concrete.

Elemix additive received an ICC Evaluation Service (ICC-ES) evaluation report (ESR-2574), providing evidence that the product meets code requirements. To view the full report, please visit http://www.icc-es.org/reports/pdf_files/ICC-ES/ESR-2574.pdf

The Product MASTERSPEC specification for Elemix additive is available for download as a sample in short form and long form 2004 versions.
